Note: Includes domestic, second career and international full-time students.

Note2 *: Variance is percentage difference between 2014/15 and 2015/16. Wide variance in some programs is due to small enrolment and graduate numbers.

Note3 **: Programs no longer offered.

Methodology: The KPI Graduation Rate calculation is based on tracking individual students who entered a program of instruction in a particular enrolment reporting period, and assessing how many of those individuals completed the program over 200% time frame (period of 7 years is used for tracking applied degree students). For each program of instruction, students who transfer out are removed from the group that is being tracked and, and those who transfer in are added. The enrolment numbers for 2015-16 reporting year are determined by taking the new student data (first year first semester) from calendar years 2008, 2009, 2011 and 2013 for programs with four-year, three-year, two-year and one-year duration's respectively.
