Land acknowledgment statement

We acknowledge the land for sustaining us and for providing us with the necessities of life. This territory is covered by the Dish with One Spoon treaty and the Two Row Wampum treaty which emphasize the importance of joint stewardship, peace and respectful relationships. As we reflect on land acknowledgments, let us remember that we are all stewards of the land and of each other.

We recognize the land on which we gather has been and still is the traditional territory of several Indigenous nations, including the Anishinaabe, the Haudenosaunee Confederacy, the Wendat, the Métis and the Mississaugas of the Credit First Nation. Since time immemorial, numerous Indigenous nations and Indigenous peoples have lived and passed through this territory.

Sheridan affirms it is our collective responsibility to honour the land, as we honour and respect those who have gone before us, those who are here, and those who have yet to come. We are grateful for the opportunity to be learning, working and thriving on this land.

Welcome to Sheridan's Transfer Guide, an informational resource for those interested in transferring their earned. Sheridan has many internal agreements within as well as to other institutions that may recognize your full or partial credentials. If there are any institutions you are interested in that are not listed, please reach out to the Pathways Office, as it doesn't mean there isn't an opportunity for you!

You can contact the Pathways Office at pathwaysoffice@sheridancollege.ca if you have any further questions regarding this publication.

Sheridan's definition of pathways

Pathways are different routes that individuals take to progress through the education system. The pathways system assists qualified students to move between or within postsecondary institutions or programs recognizing previous, relevant learning.

Pathways relate to credit transfer and credit recognition involving prior learning, high school courses, preparatory programs, apprenticeships, certificates, diplomas, advanced diplomas, undergraduate and graduate degrees, and established articulation agreements.

Continuing your education

Access to Sheridan's various pathways allow you to build on your existing credentials and experience, making it easier to get credit for what you already know. In addition to a number of exciting pathways within our own programs, Sheridan has transfer agreements with universities and colleges around the world. If you decide to continue your studies at another college or university, you may be able to transfer some of your Sheridan credits.

A Sheridan diploma may also lead to admission into a degree program.

For more information, visit pathways.sheridancollege.ca or visit ONTransfer.ca for information about program transfers between Ontario colleges and universities.

*The maximum amount of course credits are based on completing the college credential and meeting specific eligibility requirements of the pathway at Sheridan. Point of entry into degree programs are subject to change.

** In some cases, additional courses are required and this may lengthen the completion time of the degree. Number of courses to complete/required are subject to change.

General transfer information

Each institution determines its own transfer policies, which are subject to change. This brochure is intended as a general guide to help you get started. For more information, contact the Admissions Office at the institution you're interested in attending. As well as the transfer opportunities listed in this brochure, you'll find that most institutions consider additional admission and credit transfer applications to programs based on their general transfer policies. The amount of credit transfer given will vary depending on the institution, the program and your marks. For more details, visit the websites of the institutions you're interested in and search for "transfer student" policies. Additional resources are available at [ONTransfer.ca](https://www.ontransfer.ca). Sheridan students and alumni may also consult with a Career Counsellor in Sheridan's Career Centre for further guidance.

Eligibility for a degree program

If you complete one year of study at Sheridan, you may be eligible for admission into Year 1 of a degree program at most institutions, even if you don't have the required degree entrance requirements from high school; however, some programs have additional prerequisites that you'll be responsible for successfully completing. You must meet the institution's minimum grade requirement to be considered, and in many cases may need to exceed that requirement for admission. Supporting documents such as portfolios, résumés and letters of reference may also be required.

Are you coming to Sheridan from another postsecondary institution?

Once you've been accepted to Sheridan and have paid your fees, you can access our online credit transfer services to see what previous learning credits may be applied to your current program of study.

Visit mypathways.sheridancollege.ca for more information.

Transferring credits

Institutions typically grant transfer credit based on the following:

- The compatibility of your diploma studies with the program you wish to enter.
- Your overall academic average at Sheridan and, in some cases, your individual course marks.

Some institutions grant "block transfer credit" based on the length of your Sheridan studies. Other institutions assess credit transfer on a course-by-course basis (advanced standing). It's important that you check with the Admissions Office at the institution you wish to attend.

How to apply

- **To Sheridan:** complete an online application at [ontariocolleges.ca](https://www.ontariocolleges.ca)
- **To an Ontario university:** complete an online application at [ouac.on.ca/105](https://www.ouac.on.ca/105)
- **To a college or university outside Ontario:** contact the institution directly.

Dual Credits

Are you a high school student or recent graduate who has successfully completed one or more dual credit courses?

If yes, you may be able to have those courses recognized as credits into a Sheridan Ontario Certificate, Diploma or Advanced Diploma program! You've already experienced all the great aspect of college learning and higher education, so take advantage of your dual credit experience and approach your college studies with confidence!
