Social Sciences and Humanities Research Council (SSHRC)

Insight Development Grants

Subject Area:
Short-term research development projects in the social sciences and humanities.
Applicants are advised to review Imagining Canada's Future's 16 future global challenges and to consider addressing one or more of these areas in their research proposal.

Intended to:
- Foster research in its early stages (e.g. case studies, pilot initiatives, critical analyses of existing research)
- Enable the development of new research questions, experimentation with new methods, theoretical approaches and/or ideas, or exploration of new ways of producing, structuring and mobilizing knowledge within and across disciplines and sectors
- Projects may involve national and international research collaboration

Conditions:
- Individuals may apply, as an applicant, for only one Insight Development Grant at a time.
- Applications may be submitted by an individual researcher or a team of researchers. Co-applicants may be affiliated with an eligible Canadian or International post-secondary institution.
- Insight Development Grant funding is not intended to support ongoing research for established scholars, but it does support projects that are distinct from the applicant's previous/ongoing research.
- Proposals submitted by emerging scholars may build on and further the applicant's (or team's) graduate work and/or represent a continuation of their overall research trajectory. For the current competition, at least 50% of funds will be reserved for applications from emerging scholars.
- Projects whose primary objective is curriculum development, preparation of teaching materials, program evaluation, organization of a conference or workshop, digitization of a collection, or creation of a database are <u>NOT</u> eligible for funding under this funding opportunity
- Faculty course release is NOT an eligible project cost in this program.
- No team members (applicant, co-applicant or collaborator) may be remunerated with grant funds. Funds may not be used for collaborators' research costs, or renumeration, travel or subsistence costs of presenters or guest speakers.
- Applicants with relevant projects may apply under joint initiatives.
